

Meet some of our horses

At present we have over 100 horses and ponies at Wellington Riding, here are just a few of them:

On the left is Tommie. After a miraculous and full recovery from a nasty accident a few years ago, Tommie is back in full work. He competes at Elementary level with Diane who works in the office, and also earns his keep working in the riding school.

Top left we meet Cinders, with the biggest ears you ever did see! At 16.2 hh and full of energy, Cinders is ridden by our more advanced riders. She especially loves to jump, but can get a bit fast!

Gem is next to Cinders. A very popular little mare, full of energy and another jumping machine. Very popular with children and small adults alike.

On the right is Piglet. He is a really sweet Thoroughbred gelding, fun to jump and especially loved by the older children.

Next we meet Spider. Spider is one of our Schoolmaster Show-Jump horses. He is extremely genuine and honest and has helped many adults regain their nerve and enjoyment of jumping.

On the right is Sage. Another long-standing member of the Wellington team, Sage has taught many adults to ride.

Although not the fastest in the world, he's a great confidence giver both on the flat and over the jumps. Fantastic cross-country as long as you don't expect him to canter ALL the way round!

Above we see Suzanne with 3 of our New Forest ponies Ariel, Bold & Jemeson. They joined Wellington as babies and after a careful breaking and training programme they are now very useful members of the Wellington family.

And finally a rear end of a hard day!
Welly clients: See if you can name the bottoms in the picture below!
